

### TEFC Hanger Rental Agreement

The club has hanger space available to club members to rent, for the purposes of parking their aircraft.

Each aircraft owner must have a signed rental agreement with TEFC.

Rental agreements are reviewed yearly at the start of the year, with the right of continuity of use.

Rents are to be paid monthly by automatic electronic funds transfer directly into the club nominated account.

Failure to make payment for three consecutive months or to no longer be a club member, will result in the termination of the rental agreement.

The hangar spaces are to be kept tidy and within OH&S standards.

Each year fire protection work will be carried out at the onset of the dry season. Participation in fire protect work is an obligation of all hanger users.

The TEFC takes no responsibility for security or damage to any property that is kept in the hangars.

#### Terms

Monthly EFT payment is \$80.00
